

Space Island Tables

Sacha Walckhoff

Space Island / Coffee & Side Table This new opus by Sacha Walckhoff is based on the same concept of small steel bar furniture developed and launched in 2018. It consists of two nesting tables, a coffee table and a side table, which can be used together or separately. The work on the glass tops of these two tables superimposes serigraphs, colours and shimmering patterns to create a three-dimensional effect where shells and Siamese palm trees blend

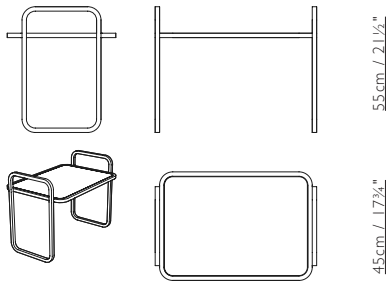

creating an effect of an infinite universe of planets. As usual, Sacha Walckhoff has fun mixing styles by combining a pure and minimal line with rich and sophisticated detail, inspired by 80s science-fiction together with 19th century botanical engravings.
